

Anastasia Krisan

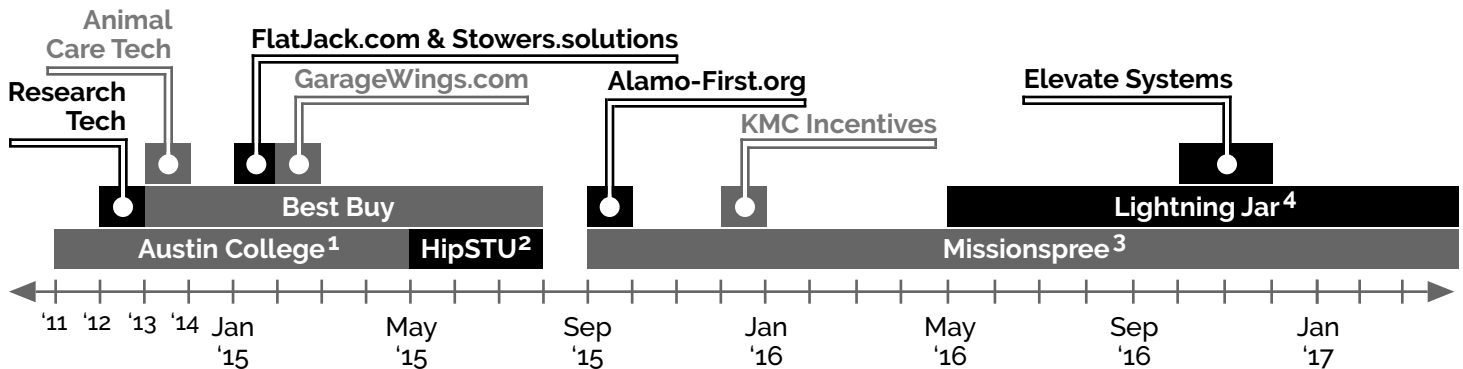

Front-end Developer

📍 San Antonio, Texas ✉ akkrisan@gmail.com ☎ (210) 723-9168 🌐 krisan.me 🐱 akkrisan

Profile

An enthusiastic, detail-oriented front-end web developer who is excited to learn and adapt to any working environment. Efficient and communicative with both clients and colleagues. Pleased to work independently as well as in a team. Experienced in working with many clients, gaining knowledge of existing implementations, and working with them to ensure the product met their needs and requirements.

Experience

1. Austin College : BA, GPA: 3.6, Majors: Environmental Studies & German, Minor: Japanese, Study Abroad: BCA Marburg '14

2. HipSTU - Contract Front-end Developer : Worked in a small team to develop and present advanced features in a Ruby on Rails application at a high turnaround rate for a student-gearred ecommerce startup. Utilized project management techniques to ensure that deadlines were met and quality work was provided.

3. Missionspree - Front-end Developer : Constructed a CSS framework using Bourbon SASS for a small experimental social ecommerce Ruby on Rails application while upholding modern standards for design and development. Followed Agile practices using Trello for task and bug tracking. Lead a user-centered design process using Sketch and ensured the final product was a pixel-perfect match.

4. Lightning Jar - Contract Front-end Developer : Collaborated full-time with a diverse, multilevel team across the country to create quality apps for numerous small to medium-large businesses (including BlueLine Rental, Beam Suntory, and Tremor Video) using a combination of modern website (Pimcore), bug-tracking (Asana), and communication tools (Slack) and Agile methodologies.

Skills

</> Languages

HTML - ERB - HAML
